## LEARN TO BE SCAM SMART!

### MEDICARE SCAMS

The most common Medicare scams are perpetrated through phone calls and emails.

The range of schemes could be Medicare scam calls, Medicare genetic testing, bogus medical alert systems, Medicare Advantage scams, fake medical alert devices, Medicare Coverage Helpline scams, and many other types of Medicare abuse.

There are many cases where patients like yourself don't know the whole story, yet official-looking authorities make you a victim without realizing it. In this instructional class you will learn how to stay safe.

### TECH SUPPORT SCAMS

You Get a Phone Call, Pop-Up, or Email Telling You There's a Problem with Your Computer.

Often, scammers are behind these calls, pop-up messages, and emails. They want your money, personal information, or access to your files. This can harm your network, put your data at risk, and damage your business.

The scammers may pretend to be from a well-known tech company like Microsoft. They use lots of technical terms to convince you that the problems with your computer are real. They may ask you to open some files or run a scan on your computer, then tell you those files or the scan results show a problem...but there isn't one.

In this instructional class you will gain information to help you stay safe!

## AARP Driver Safety Program

Presented by  
AARP & Jackson Police Dept.

Become a safer, more confident driver in this instructional course. The AARP Smart Driver course is the nation's first refresher course specifically designed for drivers age 50 and older. And you will learn something new along the way. In fact, an evaluation of the course found that 97% of participants changed at least one driving habit as a result of what they learned. Refresh your driving skills and your knowledge of the rules — and hazards — of the road as well as reduce your chances of receiving a traffic violation or getting into an accident. Depending on your auto insurance you may also save on your auto insurance (check with your insurance carrier).
